

Press Release

New for the era of liquid automation...

Proback Liquid Amies Transport Swabs are for the collection and transport of bacterial samples, ideal for use in high volume automated laboratories.

The all in one sampling kit contains 1ml of liquid Amies medium and a superior flocked swab, offering end users the following benefits:

- > **Easy collection of aerobic, anaerobic and fastidious organisms**
- > **Flocked swab for reliable absorbency and release of sample**
- > **Leak proof, swab capture cap for increased security**
- > **Compatible with automated laboratory equipment***
- > **Suitable for both culture and molecular assays**
- > **Up to 48 hours transport and recovery**
- > **CE marked and CLSI M40-A compliant**

* For trial samples, compatibility and further details please contact Technical Service Consultants on 01706 620600 or visit our website www.tscswabs.co.uk
