

Press Release

Release date: September 2012

Free up freezer space for microbes

Technical Service Consultants new Protect Multipurpose and Protect Select range will save customers over 70%* in freezer space with a re-design of its packaging using a new moisture resistant, fibreboard freezer box.

Benefits include:

- Over 70% reduction in size
- Moisture resistant lid and base
- Reference grid on lid and in base
- Fits universal freezer rack systems
- Easy-lift lid

Protect, the original bead micro-organism preservation system is ideal for long term maintenance of stock and quality control of microorganisms including bacteria, yeasts and moulds.

TSCs cryopreservation beads are chemically treated and immersed in a specially designed cryo-solution, that prevents damage whilst frozen and facilitates the perfect conditions for long term storage of organisms.

TS/80 Protect Multipurpose range contains 80 colour coded vials (Blue, White, Green, Yellow and Red), with 16 of each colour in TS/80-MX (mixed).

TS/73 Protect Select range offers the end user a specialised range created to optimise recovery without extra workload. Protect Select Anaerobe, Dairy, Yeast and Mould and Meat Free will now be offered in packs of 80 and 25.
