

## Product Specification Sheet

### **TS/15-DA40**

Sterile 500 ml Water Sampling Container with Sodium Thiosulfate (90 mg)

|                             |   |
|-----------------------------|---|
| Product Code                | TS/15-DA40  |
| Description                 | Sterile 500 ml Water Sampling Container with Sodium Thiosulfate (90 mg)   |
| Intended Use                | Sampling of potable and swimming pool water samples for microbiological analysis. Sodium thiosulphate neutralises chlorine (up to 50mg/L) |
| Components                  | PET Bottle, HDPE Cap, Label.  |
| Contents                    | Sodium thiosulphate - 90 mg.  |
| Method of Sterilisation     | Sterilised by gamma irradiation at dosage of 25-53.4kGy   |
| Shelf Life                  | 12 months from date of manufacture  |
| Storage Conditions          | 4-25°C. Store in dry and ventilated area; protect from light, heat and moisture in tightly closed original packaging                      |
| Precautions and Limitations | Chlorine level must be assessed before sampling to ensure neutralisation  |
| Pack Size                   | 40 in a box   |
| Other                       | Quality control testing details on final product: i) Validation of irradiation sterility.   |

This specification (and formulation where applicable) are intended for guidance only and may be adjusted to meet product defined criteria.

You should always refer to a professional with experience in your intended application if in any doubt.
