

Press Release

New & improved white inoculating needles.

Technical Service Consultants (TSC) new and improved white disposable inoculating needle, the perfect partner for Protect microorganism bead storage systems.

- **Colour change** - better visibility when used with Protect
- **Flexible & precise** – ideal device for use with Protect beads
- **Easy 'pick up & grip' design** - tapered tip for improved bead security
- **Safe and secure** - transfer of cultures from freezer to culture plate
- **No risk** – no balancing beads with inoculating loop
- **Time saving** - compared to heat sterilisation of re-usable needles
- **Perfect** - for counting or isolating pathogens from heavy mixed cultures
- **Cost effective** - packaging options available for busy labs
- **Convenient** - 2 year shelf life
