

Product Update

TSC to reduce packaging in SwabSURE ListeriaP

From 1st June 2014 Technical Service Consultants (TSC) will be offering SwabSURE ListeriaP Swabs without the peel pouch.

The FS/L01 Swab code will be superseded by the new PreMoist Swab code TS/6-63BP.

There is no change in the actual product, components or performance.

This offers end-users the benefit of no peel pouch whilst reducing loose packaging in production areas.

- Improved product design
- Reduced packaging
- Improved user comfort and convenience
- Gamma irradiated for guaranteed sterility

If you have any concerns regarding this change please contact us on:
